36.8. The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. It is the Client's responsibility to monitor his positions at all times.

36.9. The Client acknowledges and agrees that the Company has the right, unilaterally and with immediate effect, to suspend or terminate (at any time, with or without notice cause or prior notice) all or any part of any Services, or the access to any Service, to change the nature, composition or availability of any Service, to impose trade exposure limitations or to change the limits set on the trading conducted by the Client through any trading platform on any/ all Accounts.

36.10. CFD trading is subject to dividend adjustments. In this way, the dividend adjustments applied to CFD trading on indices/shares account for the dividends paid out on the underlying assets on which these CFDs are traded. Dividend Adjustments are calculated based on dividend announcements made by the Company that issues the shares.

36.11. A dividend is scheduled to be credited/deducted to the holders of Shares/CFDs or Cash Indices depending on the direction of the open position(s). For long positions, the dividend adjustment is credited to the client's account. In case of short positions, the dividend adjustment is debited from the client's account.

Example: *Dividend adjustment on an Index CFD*

Suppose that a Company, whose share makes up part of the index on which the Client has an open position, announces an ex-dividend date of 15/03/2023.

Please note that the dividend adjustment will depend on the volume, i.e. the net volume of the client's open position in lots, the dividend amount, and the size of one lot.

A Client has an open position with 2,5 lots on the SXP500 index on the ex-dividend date, where according to the contract specifications, one lot amounts to 1 contract and the dividend amount on 15/03/2023 was 2.11 USD. In this case, the dividend adjustment will be calculated as follows:

Dividend Adjustment x Contract Size x Volume (lots)

Calculation

2.11 USD x 1 contracts x 2.5 lots = 5.275 USD

If the Client's long position is still open at the beginning of the trading session on the 15/03/2023, their trading account will be credited with the dividend adjustment amount of \$5.275, while if the Client has a short position of equal value open at the beginning of the trading session on 15/03/2023, the dividend adjustment of \$5,275 will be debited from the client's trading account.

36.12. The Dividend Adjustment amount is not decided by Amega Global Ltd. it depends on the parameters set by our liquidity providers. As such, dividend adjustments quoted on any asset are provisional, and may be amended in accordance with changes made by our liquidity providers.

36.13. In some cases, the Company is required by the laws of the issuing company's or holding company's country to withhold taxes on dividend adjustments. In such cases, dividend adjustments will be credited to the client's trading account only after tax amount has been deducted. The tax amount is not withheld in cases where the dividend adjustment amount is deducted from the client's trading account.

37. Decline of Client's Orders, Requests and Instructions

37.1. Without prejudice to any other provisions herein, the Company is entitled to decline or refuse to accept and/or transmit or arrange for the execution of any Order of the Client in CFDs, for any good reason including but not limited in any of the following cases as applicable to CFDs:

38.2. It is the Client's responsibility to ensure that he understands how Margin is calculated.

38.3. The Company has the right to change Margin requirements with prior notice to the Client. In this situation the Company has the right to apply new Margin requirements to the new positions and to the positions which are already open.

Information about the time frames during which increased Margin requirements are in effect is published in the Client's Personal Area and/or on the Company's Website.

38.6. Increasing the amount of hedging in trading accounts (and for the Underlying Assets that are subject to Hedged Margin) is treated as opening a new position and will result in a proportional (based on the amount) change in Margin requirements on previously opened positions for the corresponding financial instrument.

38.7. Reducing the amount of hedging in trading accounts (and for the Underlying Assets that are subject to Hedged Margin) is treated as opening a new position and will result in a proportional (based on the amount) change in Margin requirements on previously opened positions for the corresponding financial instrument.

38.8. The Margin requirements applicable to the different CFDs can be found in the Contract Specifications section on the Website. If at any time the Equity falls below a certain of the Necessary Margin, specified in the Contract Specifications section on

the Website, the Company has the right to close any, or all of the Client's Open Positions without the Client's consent or any prior written notice to him. 39.1. The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor and/or any other automated processes are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever. The Company reserves the right to accept or reject at its own discretion the use of additional functions of the Client Trading Terminal and in case these additional functions affect the reliability and/or smooth operation and/or the stability

of the Company's Trading Platform to immediately terminate by way of written notice the relationship with the Client and/or take any actions deemed necessary.

39.2. Under certain trading conditions, it may be impossible to execute Stop Loss Orders, Take Profit Order, Buy Stop Orders, Sell Stop Orders or other Limit Orders or any financial instrument at the declared price. In such a case, the Company has the right at its sole discretion to execute such Orders or change the opening (closing) price of the transaction at the first available price. This may occur, for example, at times of a rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted.

39.3. The Client agrees that placing a Stop Loss Order will not necessarily limit losses to be intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

42.1. Orders can be placed, executed and (if allowed) changed or removed within the trading hours for each CFD appearing on the Company's website, as amended by the Company from time to time and if they are not executed they shall remain effective through the next trading session (as applicable). All open spot positions will be rolled over to the next Business Day at the close of the business in the Underlying Market, subject to the Company's rights to close the open spot position. 43. Quotes

43.1. The Company provides Quotes by taking into account the Underlying Asset price, but this does not mean that these Quotes are within any specific percentage of the Underlying Asset price. When the relevant Underlying Market is closed, the Quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the Underlying Asset at that time. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

43.2. It is hereby acknowledged and understood that any Quotes displayed on the Trading Platform and/or Client's Terminal are considered indicative at the time of display and may not be up-to-date with the real-time pricing, owing to various factors beyond the Company's control, including but not limited to, technical conditions such as the transfer rate of data networks, the quality of internet connection which affects the time it takes for the price to reach Trading Platform and/or Client's Terminal after it leaves Company's servers, and rapid market fluctuations. Despite Company's efforts to promptly update all Quotes in the Trading Platform and/or Client's Terminal for real-time accuracy, these factors, and any other factor beyond the Company's control, may lead to the Trading Platform and/or Client's Terminal showing a stale Quote, and due to this, slippage may also be observed.

43.3. In the event that the Company is unable to proceed with the execution of an Order, with regard to its price or size or for any other reason, the Company may send a re-quote to the Client with the price it is willing to deal.

43.4. The Company will delete Error Quotes (Spikes) from the Trading Server's Quotes Base.

43.5. The Company has the right not to provide Quotes and not execute Orders in case when the price of Underlying Asset becomes negative.

43.6. It is acknowledged that whilst the Quotes displayed on Trading Platform and/or Client's Terminal take into account a variety of factors including market data from various third party external reference sources, they are not taken directly and/or exclusively from one source, and therefore such Quotes may not match Quotes that Client sees elsewhere (including the Quotes of other third trading entities). It is also acknowledged that all prices shown on the Trading Platform and/or Client Terminal are indicative and are subject to constant changes.

45.11. The Company reserves the right to cancel, amend, terminate Swap Free status of Client's Account and/or Swap Free levels at its sole discretion and without prior notice without bearing any responsibility or liability in this regard.

45.12. The Company reserves the right to disable and/or enable swap free trading for Client's Trading Account at any given time, without being obliged to provide any explanation or justification, if it has enough reasons to believe that the Client's trading strategy imposes a threat to the Company's smooth operation of its trading facilities or where the Client is abusing the Company's systems and trading conditions without genuine interest in market exposure/speculation.

45.13. The Company reserves the right to take any of the following actions, at any time, in the event that detects any form of abuse, fraud, manipulation, cash-back arbitrage, carry trades, or other forms of deceitful or fraudulent activity in regard to any Swap-Free Account of any client, (a) with immediate effect, to revoke the Swap Free status from any and all real trading Accounts of such a client and charge the relevant swaps; (b) to correct and recover any un-accrued Swaps and any related un-accrued interest expenses and/or costs pertaining to any and all of such client's Swap-free trading Accounts during the period for which such Accounts were Swap-free trading Accounts; and/or (c) with immediate effect, to close all trading accounts of such client, nullify all trades carried out in such client's trading accounts and cancel all profits or losses garnered in such client's trading accounts and/or change the client's trading conditions or restrict the opening/modification/closing of trades.
